Crowds Expected for Record Attempt

Ringers from five countries are expected to gather at Tower Fabuloso on July 15th at 10:00 AM to participate in an unprecedented attempt to ring Fantastica on 80,000 pounds of bells mounted 100 feet above the pavements of Main Street.

The event is the first ever gathering of skilled practitioners of the art of change ringing in this city. They will come from across North America as well as Europe, Australia, and South Africa to do exciting, arcane, little known, exotic things for five days on bells that were given to the city by a very important but mysterious person. The highpoint will come on the last day when they will attempt to carry out this remarkable feat on the only 17-bell ring on this continent.

Press Conference: July 14th at 5 PM, Tower Steps
Featuring Key Dignitary I, II, & III
Photo Opportunities
